

The Research Committee of the Magnolia Society hereby request proposals from any interested persons for its Research Grant Program. The grant Program exists to encourage and support research related to botany and horticulture of Magnolias and the Magnoliaceae. Grants may be used over a period of one to three years, at the discretion of the recipient, except that funds may not be used for institutional overhead. Grants are provided to deserving recipients with the understanding that research results will be published in Magnolia, The Journal of the Magnolia Society, a non-refereed publication. Those who are unfamiliar with research in the Journal will benefit by reviewing the back issues of the Journal, which are available in may horticulture libraries.

1. Date:

2. Project Title:

3. Name, Title, Affiliation for each researcher on the project:

4. Address:

5. Telephone: () _____ **Fax:** () _____

6. Email:

7. Significance to the Magnolia Society:

8. Objectives:

9. Justification of required funding and proposed budget:

10. Proposed duration of the project:

11. Work plan for the project:

12. Publication of Research Results (You must include statement agreeing to submit research results to the Magnolia Society International):

13. Signatures of the project leader(s) or major professor (if applicable):

You may include up to four pages of additional information with this application, such as biographical information, a selected bibliography or abstracts of previously published work.

This research proposal and any supplemental information should be sent to:
